

imagine... an extra night on us!

We at Wilderness Safaris have just celebrated our silver anniversary of safari operating - **25 years of developing a business of wildlife appreciation and responsible tourism** - and we wanted to offer something special to our loyal network of partners. In line with this, we at North Island would like to further acknowledge the support that you have given specifically to the island in the last 6 years of operation.

We realize that along our journey, you, our partners, have offered us great support for which we are grateful. Now, with so many of our partners facing the challenges of a struggling world economy, we want to offer you extra support to help you with your bookings, to stimulate your customer base and to close deals. It's time to work together!

Terms and Conditions:

- New bookings only.
- Bookings to be made before the end of February 2009, for travel before 15th May 2009
- No conversion of confirmed bookings
- This is valid for all new bookings only and has a limited booking period up until the end of February 2009.
- It applies for guests traveling up until our closure on 15th May 2009.

We at Wilderness Safaris also see this as an opportunity to promote our concept of 'partnering the trade' to carry us into the next phase of development with our international partners. What we offer is not a reactionary, kneejerk 'special'. But a well thought-out response to the information we've been gathering from around the world. From this assessment, we have concluded that there is no better time to strengthen our commitment to one another and begin this next phase of enhancing partnerships with you, your clients, our African partners, and with the wilderness.
